

QUALITY POLICY

KIMT LLP aims to become a modern and recognizable manufacturer in the international market with a reputation as a reliable and profitable supplier of high-quality products for Customers.

KIMT Company's field of activity is development, production, selling and maintenance of thermoelectric modules (generators and coolers) and sub-assemblies based on them, as well as electronic devices.

KIMT Quality Policy is to provide products that meet customer required performance, quality and reliability, while complying to the relevant regulatory requirements. KIMT is committed to continuous improvement and customer satisfaction through the use of an effective Quality Management System.

KIMT commits and empowers its employees to implement this policy through the following course of action:

- Fully meet the Customers' needs, deal promptly with their demands, and provide technical support when it is needed.

- Integrate quality management principles into critical business processes and decision-making practices.

- Continuously improve the effectiveness of the Quality Management System, our processes, products, to enhance their value for our customers, shareholders, and employees.

- Establish quality requirements and ensure suppliers, partners and contractors comply with them.

- Maintain our Quality Management System to conform to the requirements of ISO 9001.

**QUALITY IS A KEY COMPONENT
OF OUR COMPANY'S DEVELOPMENT STRATEGY AND SUCCESS.**
